A Personal Message from Jack Canfield

I am so delighted that together with ITD Group, we now have an absolutely life impacting program for teenagers and students. The purpose of the Canfield Training Group and ITD Group are strongly aligned, and in essence we inspire and empower people to live their highest vision in the context of love and joy.

Dr. Peter Chee, my co-developer, co-author and partner has been so kind and gracious to sponsor this program under their ITD Love Thy Nation Campaign so that students and future leaders all over Asia can derive great value.

I wish you love and joy as you travel on this success journey with Dr. Peter Chee and ITD Group that I fully trust.

Jack Canfield

Welcome Message from Dr. Peter Chee

In this one-day life-shaping seminar you will learn to use The Secret and The Success Principles to enable you to become the happy and successful person you are meant to be. Our proven Ten Steps to Success Formulae and Action Plan shows you exactly how to create greater achievements faster. It's a blueprint for living a more fulfilling life.

Jack Canfield and I have used these very same principles and values to create the life that is admired by many. These core competencies have been the secrets of outstanding achievers all over the world. These are the very things that are not focused on in academic studies and this will be your difference maker.

I look forward to working with you and to add great value to you with love and joy.

Dr. Peter Chee

What Will You Learn & Gain?

After learning and practicing the principles & values:	Not learning and going against the principles & values:
Using the Secret Law of Attraction: Keep focusing, thinking, feeling and taking action on what you want and getting more of it	Abusing the Secret Law of Attraction: Keep focusing, thinking, feeling and resisting what you don't want and getting more of it
1. Take full responsibility for determining the success and outcome you want	Continue blaming, complaining, defending and making excuses
2. Having healthy self esteem and be ready to face great challenges. Practicing positive attitude, gratitude and uncommon appreciation	Feeling down, unhappy and disappointed in yourself. Responding negatively, being demanding and unappreciative
3. Knowing how to establish clarity of purpose and vision and focusing on your passion and core genius	Unclear purpose and vision, confused, lack of direction and dwelling on things that make you frustrated
4. Set specific and measurable goals that are in line with your vision and purpose	Poor in goal setting and not having goals aligned to your vision and purpose
5. Visualize, affirm and motivate yourself and others for greater achievement	Visualize failure and fear, create self doubt, continue to lag behind and feel demotivated
6. Establish an effective action tracking plan with clear strategies and tactics for success	Have no clear plan and accountability of progress and leave your future to chance
7. Take action, ask and get things done quickly to achieve great results	Procrastinate, be afraid of asking, continue to get stressed and lose focus
8. Ask for and respond to feedback and keep learning and getting better	Slow to learn and improve, quick to defend and fight back and do not welcome feedback
9. Persevere, believe in yourself and do not give up easily in the face of challenges	Give up quickly, lack of self confidence and keep starting all over again
10. Reap rewards and celebrate each step of your success journey	Watch and envy others that succeed

Continuous Learning Resources, Tools & Follow Up
