But what do these terms mean? What proven strategies work to attract, manage, retain, position and motivate talented people as economic conditions globally become more challenging? This program addresses these questions.

Real world research has proved the fact that a talented employee can be as much as 20 times more productive than the average worker. Just imagine how much more we are capable of achieving with more talent in our organization.

I will also be sharing with you many contemporary tools and technologies that you will be able to put to practical use right away.

I will bring you to the cutting edge of the profession and enable you use effective talent, competency and succession management strategies and tactics to create competitive advantage for your organization which is sustainable through good and challenging economic times.
